

Parish Council AGM

Apologies from the Police

Firstly we live in a very safe area and Hampshire is one of the safest counties in the England – so although you do hear from me quite a lot (about 15 times since the last AGM) we really are very safe and secure living here!

I am pleased to report that two of my emails in the last year have prevented two residents being scammed!

45 calls were made by villagers to Police in the last year

- 8 were as a result of burglaries /thefts . (lots of building / roadworks/ pub work in last year)**
- Most of the calls were to report “suspicious activity and cars – this is great – please keep reporting these as although something may not occur there and then those captured car reg numbers than often pop up in local villages and are involved in criminal activity**
- Two of the calls were from local Farmers who report imminent shoots**

So- in summary do keep reporting anything suspicious ! Do not rely on facebook

I must publicly thank Mark Ransome and the staff of Arqiva – I have regular meetings there and as you all know they walk through the village daily and see / and hear a lot which is really useful

There is a sheet at the back with our current Police team on and details of how to contact them – and the best news of all we are expecting Kerry back in August!
